In the remainder of the districts the election has been set aside for causes given below, or are to be contested. New slections will be ordered only in those districts where the setting saids of only in those districts where the satting aside of one or more precents occasions a vacancy.

The Governor had prescribed the forms of oaths to be taken by the judges of election, by vecers, and by the judge inking the returns to him. His right to prescribe such oaths was questioned and overruled in several of the districts, and he refers the matter to the Attorney General of the U.S., for his decision. Until such decision is made, the matter is set aside and the certaincies of selection withheld.

The results are disastrous to the free state party, as doubtless to many of the smaller districts, where pro slavery candidates have been returned, there were illegal votes enough t. shange the result, and still circumstances prevented a protest. The certificate of ten man wat equired with the effidavit of one setting forth the grounds of the protest and then wridence has to be produced, satisfactory to the governor.

following them to their homes in the states, o by some other person being acquainted with hem there and disposed to make it known Even in the overwhelming numbers in which they came to this place it would have been difficult for any ten men, or even any one man, to have certified that a sufficient number of those were illegal voters to have changed the result. were it not for their own admissions. Then in the large districts and others where protests have been made, and oaths p recried, thus producing the setting saids of the elections, and suspending them, it has been done by foreign voters attempt ing to overide the free-state majorities there thus preventing the election of their candidates Here the results have also been disas rousso that we can barely make a show in either House. We hope however, at a second trial in the contested districts, if permitted to make it, that we shall make large additions to the minorities, which be accomplished. we a sall still have in both branches of the legis-

lature.

But we do feel that there is a better time coming , that the scenes of the recent efection can never be re-enacted, in the same form, at least; sepecially that the emigration of those peepared to work for freedom will be such during the approaching season as to settle the question of freedom or slavery in Kansas for all time to come. But because the alayery propagandists have confessedly overdone the thing at the recent election, and are prepared to see a reaction against oces of liberty, and the extinction, or even the limitation of slavery, to think it will work itself power is ever vigilant, ever active, fertile in exelients, and of indomitable pemeverance. If foiled in this attempt, and this plan of operations should be abandoned for the time to come, do got expect that we can repeat upon our laurels. We must and shall meet the enemy somewhere .-Their successful and unsuccessful intrigues, in Congress and elsewhere, in the politics of the country, are too well known to be readily forgotten ; but in my opinion it is not there that we are to meet them in this contest. Kansas is and is to be the battle-field, and they are determined to succeed-"peaceably, if they can; forcibly, if they must." The plan, I am satisfied, now is, to settle young men from the Slave States, of limited means, pledged to and aducated in the institution, in the Territory-make them actual residents; and in this way maintain the ascendancy by numbers, and also by this means to be prepared, if the occasion presents in the settlemen of this question in the Union, to meat force with force. Such have recently been the givings-out of some of the southern papers. Meed I ask again..." What is the duty of Northern men" is this origin? for I feel it to be a crisis indeed. Let us lay aside for a few moments out all-engrossing se fishness, and come, if possible, to a realising sense of what we should do with ourselves, our influence, our money, our all, if we " Love God with all our hearts, and our neighbor as our-

Board of Trade. Tuesday, April 24, 1855.

The Board met at 71 o'clock, and was called to order by President HILL. The first business timely commencement of the Sabbath School- was the reception of the report of the Delegates the nursery of Temperance, Peace, Truth, Jus- to the St. Clair Flats convention at Buffalo.-The committee, through their Chairman, made the following---

The undersigned, Delegates appointed by the Board of Trade to attend the Convention proposed to be held at Buffalo, to devise ways and means for the improvement of the St. Clair Flats, respectfully submit the following report of their doings:

In compliance with the resolution of this Board, your Delegates left here on Monday morning last for Buffalo, and reached that city on the Wednesday following. Proceeding to the ooms of the Buffalo Board of Trade, they found that body in session, and discussing the subject of the proposed improvement. Shortly after their arrival, the Board adjourned, and the Convention organized for business. Your Delega tion observed with mingled surprise and regret, that the only Lake cities represented be sides Buffalo, were Chicago and Milwaukee: neither Detroit, Cleveland, nor Oswego, having any Delegates in attendance. Assurances were not wanting, however, from prominent men in each of these cities, that they would do their share in making up the fund uccessary to dredge the channel over the Flats. There were laid before the Convention a very interesting report from the Committee of the Buffalo Board of Trade, making out a plan and covering estimates of the cost of the work, and another from Mr. J J. HENDERSON, Secretary of the Board, who had been sent to Quebec to bring the subject to the attention of the Canadian Government, and solight their aid and co-operation in making the improvement. Both documents are attached to this report. The Convention had also the benefit of the personal observations and experience of a number of the best Cantains on the Lakes familiar with the several channels across the Flats, and competent to advise as to the selection of the one most easily improved, and offering the best and shortest route from the river into deep water in Lake St. Clair. Upon the facts and considerations thus presented to them, the Convention, after a full discussion of the subject, and with entire unanimity, determined to proceed with the work of dradging the south

channel of the St. Clair Flats, and to that end adopted the following resolution: Resolved, That a committee of five be appointed to as. certain where the best channel can be made with the less expense across the St. Clair Flats, giving a good depth of a water for the passage of reasels. Also, to contract with parties who will anter into proper bonds to do the work. Also, to collect the funds raised to defray the supenses of

ties subscribing, shall give negotiable bonds for the pay-ment of their several subscriptions, within the time for the performance of the contrast, as they may be called-for by the Treasurer of the Committee Meeers. W. A. Fox, G. W. Holt, and H. C. Walker, of Buffalo; B. S. Shepard, of Chicago; and E. W. Hudson, of Detroit, were appointed the Committee, under the above resolution Your Delegation were strongly urged to name one member of the Committee from Milwankee but they declined doing so in the belief that the business in hand could be more conveniently transacted by a Committee located at Buffalo Detroit and Chicago.

It was also decided to appoint a Committee of three, consisting of Messra. G. W. Ronnds, and James Peck, of Chicago; and W. B. Alvord of Milwaukeer to open a correspondence with those cities on the Lakes that have not yet contributed to the Improvement Fund, and arge them to do so. It is confidently believed that the active and enterprising business men of Detroit, Cleveland, and Oswego, which are at least equally interested with ourselves in the improve ment of the St. Clair Flats, will not be insens ble to this appeal, but will contribute, prompt ly and liberally, in aid of the proposed work. There is, too, every reason to think that th Canadian Government will make a liberal grant for the same object, as the accompanying communications from Messrs. Geo. Brown, and Wu Hamilton Merritt, members of the Canadian

We are indebted to the Wisconsin for the ype of the proceedings of the Board of Trade WATERTOWN RAILROAD.-The Democrat has

the following in reference to this road : A meeting of the Directors of the Milwaukee and Watertown Railroad Company was held at Milwaukee last week, at which a resolution was passed authorising the Pracident to go to the city of New York and negotiate the bends of the Company. In accordance with this action, we learn that Dr. Johnson immediately departed for New York for the surpose of raising money and New York, for the purpose of raising money and taking charge of the Railread iron recently purchased by him, which, we understand, is now on its way here.

The War Flurry. If the New York newspapers are to be credi-ed, the New York exchange believes in the belheerous Union and the stocks are tumbling down ngerous Unioned the social we summing down at the prospect of a Spanish war. We publish the information for what it is worth. Bulls and bears are always sensitive creature, yet, after all, gestlemen with money to lose may well be frightened at that automs of an administration frightened at that antrums of an administration hopelessly bankrupt. It counts be denied that logic points with unmistakable directness towards hostilities. War would be the foolishest thing in the world, the foolishest thing in the world, the foolishest thing in the world, the foolishest thing in the world is just what the President would be likeliest to do, ergo, the President willight own. Without an arry, without an arms of nonzense, why should not Franklin Pierce throw down the gauntle? He may roin the prosperity of the nountry, but he has already destroyed its domestic pasce. He may be guilton, but he has already destroyed the comity of the States. Why should be higgle at an arrant upon Spain, when he has trampled upon the internal treaties of the quont yethe concessions and ernal treatice of the count withe concessions an compromises, which for years had been legarded the asfeguard of the Federal Union.

The mystery which shrubds the mission of the Sau Jacieto afferds the sismusta an ample subject for sulphurous disquisition. The ready reshums of Capt. Hollies may find an initiator in Capt. McCaller.

ness of Capt. Hollies cars flod an imitator in Capt. McCauley. He too, may have instructions meaning little or much as they may be hereafter construed by a time serving Cabinet. He, too, may be led by the devil of smbitton into sham gallantries; and in quest of newspaper notorists, with the Presidency is the perspective, he may better down villages and treat errant fishing smacks to a broadside.

amocks to a broadside.

And yet we do not believe that there will be a war. A nation, in times like these, cannot afford to wage hostilities without a sufficient cause. Considering its antecedants, such a contest, though armsides should be engaged and armsides of imperial splendor take the field, would not shake off its patty areanous character, or rise above the dignity of a squabble. The moral sense of the age—that great international concenens, which neather kings nor presidentiate disregard, frow a upon the thieving of States as it never frowned before. The men who seek to compromise the nation

The men who seek to compromise the nation—the Soule act of trud actors and bed writers—are very justignificant in the eyes of Americans.—Saunders is a scribbler. Davis a mouthing ranter. Pierce a pigmy, Soule a broken minister. Huchanan a bad statesman in a bad dotage. The intellect of the people has gauged these men, and knows their aballowness. The country will not permit a war declared without cause, and carried permit a war declared without cause, and carried on, as such a war would be, without success of ability. The safety of the nation is in the imbediant of war, it will be the first to run from the demon of its own calling. If its blunders create the necessity for new diploracy, it will take raines, at this period of life, that she was dropfed— with perfect joy, in the piper contest of protocols.

But because the slavery propagandiets have confessedly averdone the thing at the recent election, and are prepared to see a reaction against there in consequence, still it will not do for us, or for northern men, or any men who desire the sueoess of liberty, and the extinotion, or even the out clear. The plan, I am satisfied, now is, to settle young men from the Slave States, of limited menns, pledged to and educated in the institution, in the Territory-make them actual residents; and in this way maintain the ascendancy by numbers, and also by this means to be prepared, if the occasion presents in the settlement of this question in the Union, to meet force with force. Hoard of Trade.

Tuesday, April 24, 1855. The Board met at 71 o'clock, and was called to order by President HILL. The first business was the reception of the report of the Delegates to the St. Clair Flats convention at Buffalo .-The committee, through their Chairman, made the following---REPORT.

The undersigned, Delegates appointed by the Roard of Trade to attend the Convention proposed to be held at Buffalo, to devise ways and means for the improvement of the St. Clair Flats, respectfully submit the following report of their doings : In compliance with the resolution of this

Board, your Delegates left here on Monday morning last for Bulfalo, and reached that city on the Wednesday following. Proceeding to the come of the Buffalo Board of Trade, they found that body in session, and discussing the subject of the proposed improvement. Shortly after heir arrival, the Board adjourned, and the Convention organized for business. Your Delega tion observed with mingled surprise and regret, that the only Lake cities represented be-sides Buffalo, were Chlesgo and Milwaukee; neither Detroit, Cleveland, nor Oswego, having any Delegates in attendance. Assurances were not wanting, however, from prominent men in sch of these cities, that they would do the share in making up the fund necessary to dredge the channel over the Flats. There were laid before the Convention a very interesting report from the Committee of the Buffalo Board of Trade, making out a plan and covering estimates of the cost of the work, and another from Mr. J. J. Henderson, Secretary of the Board, who had been sent to Quebec to bring the subject to the attention of the Canadian Government, and solicit their aid and co-operation in making the improvement. Both documents are attached to this report. The Convention had also the benefit of the personal observations and experience of a number of the best Captains on the Lakes, familiar with the several channels across the the prospect of a position with unables to lose may well be improvement. or by the Treasurer of the Committee Messrs. W. A. Fox, G. W. Holt, and H. C. Walker, of Buffalo; B. S. Shepard, of Chicago; and E. W. Hudson, of Detroit, were appointed the Committee, under the above resolution. Your Delegation were strongly arged to name one member of the Committee from Milwaukee but they declined doing so in the belief that the business in hand could be more conveniently transacted by a Committee located at Buffalo, Detroit and Chicago.

It was also decided to appoint a Committee of three, consisting of Messra, G. W. Rounds, and James Peck, of Chicago; and W. B. Alvord of Milwaukee to open a correspondence with those cities on the Lakes that have not yet contributed to the Improvement Fund, and arge them to do so. It is confidently believed that the active and enterprising business men of De troit, Cleveland, and Oswego, which are at least equally interested with ourselves in the improve ment of the St. Clair Flats, will not be insen ble to this appeal, but will contribute, prompt ly and liberally, in aid of the proposed work. There is, too, every reason to think that the Canadian Government will make a liberal grant tor the same object, as the accompanying comnunications from Messrs. Geo. Brown and Wm. Hamilton Merritt, members of the Canadian Parliament, will show.

The Committee of five met immediately after the adjournment of the Convention, and employed a competent Engineer to proceed at once to the Plats, and make the necessary surveys and calimates, preliminary to letting the co tract for dredging the South Channel. This duty was to be entered upon to-day; Mr Hudson, of Detroit, one of the Committee, accompanying the Engineer to the Plate. Your Delegation have only to add that they

the following in reference to this road:

A meeting of the Directors of the Milwaukee and Watertown Railroad Company was held at Milwaukee last week, at which a resolution was passed authorising the Pracident to go to the city of New York and negotiate the bends of the Company. In accordance with this action, we learn that Dr. Johnson immediately departed for New York, for the purpose of raising money and taking charge of the Railroad iron resently purchased by him, which, we understand, is now on its way here.

The War Flurry. If the New York newspapers are to be credi-ted, the New York exchange believes in the bel-ligerous Union and the stocks are tumbling down

facts and considerations thus presented to them, the Convention, after a full discussion of the subject, and with entire unanimity, determined to proceed with the work of dredging the south channel of the St. Clair Flats, and to that end adopted the following resolution:

Resolved, That a committee of five he appointed to expense across the St. Clair Flats, giving a good dopth of water for the passage of rescale. And yet we do not believe that there will be a
war. A nation, in times like these, cannot afford
to wage hostilities without a sufficient cause. Considering its antecedents, such a contest, though
armadas abould be sugaged and armaics of imperial aplendor take the field, sould not shake off the patry lareanous character, or rise above the dignity of a squabble. The moral assue of the age—that great international conscence, which notibes kings nor presidents can disregard, frown upon the thieving of States as it never frowned The man who seek to compromise the nation

The man who seek to compromise the nation—the Soule set of bud actors and bad writers—are very insignificant in the eyes of Americans.—Saunders is a scribbler. Davis a mouthing ranter. Pierce a pigmy. Soule a broken minister. Buchanan a bad statesman in a bad dotage. The intellect of the people has gauged these men, and knows their shallowness. The country will not permit a war declared without cause, and carried on, as such a war would be, without success or permit a war declared without cause, and carried on, as such a war would be, without success or ability. The assets of the nation is in the imbecility of the Cahinet. If it invokes the idevil of war, it will be the first to run from the demon of its own calling. If its hlunders create the necessity for user diplomacy, it will take rappe, with perfect joy, in the piper contest of protocols. The big tails of the Union seamet build frigates or enrol armies. A Becretary of War without any troops is a harmless creature and so is a President without any brains.—[Beston Atlas.

THE INDICTMENTS FOR GAMPLING SUSTAMED.—
It is known that a large number of persons were recently indicated for gambling in this place. A motion to quash one of he indications in the Ofrenit Court yesterday, failed. Judge Debittle decided the indicatment to be good,—[Madisson Journs].

How at Burfalo.

Bafialo, April 21.
There was a strike on the docks yesterday of Ship Carpunitre and Sallors for higher wages, and some disturbances occurred. To-day a band of mass, followed by 650 of the strikers paraded the strikers Some difficulty was apprehended as the strikers appear desions of interfacing with the men who shall continue at their work. Death of a Missionary.

Boston, Tuesday, April 21. A private letter from Ceylon mentions the death by cholers of Ray David Poor, a valuable missionary of the American Board, on the 2d of Pebruary. The cholers was raying with much fatality at Ceylon.

Montreel, April 24. An extensive fire has laid in rains nearly the whole of the township of Vienza, between Hamilton and Buford.

Personal Affrage.

Licut: Beats, formerly Indian Agent at California, whose accounts have just been allowed by the Freezry Department, andicted a severe castigation with his flats upon Col. Manypenny, Commissioner of Indian Affairs, at Wittard's Hotel, this afternoon. Licut. Beste attributes the temporary disallowance of his accounts to the personal hostility of the Commissioner—and bence the assents.
